Eisenhower Matrix

Do - MVP

- enter a run with date distance and time
- calculate and display pace
- save runs and show history and weekly totals

Schedule - Later

- add charts for distance and pace
- let the user set a weekly mileage goal
- let the user edit or delete old runs

Delegate - Libraries

- use datetime for dates
- use csv for saving runs
- use pathlib for file paths

Delete - Not Needed

- user accounts and cloud login
- social media sharing
- a phone app version
